

A Great Big Sausage Sarnie

G **D**
Oh all the doctors these days they seem to have the notion
G **D** **C** **D** **G**
That every ill must have a pill and every pox a potion
D
It's the laser and the phaser it's the scalpel and the lancet
A **D**
They could give the good old cures a try but they just don't want to chance it

G **C** **G** **D**
For the power of the sausage sarnie is highly underrated
C **G** **D** **G**
The power in its wrinkly skin is underestimated
Em **D** **Em** **D**
So take no pills forget your ills be you halt or lame or barmy
C **D** **G** **D** **G** **D** **G**
You'll be free from pain and right as rain with a great big sausage sarnie
C **G** **Am** **D**
Sarnie Oh Sarnie a great big sausage sarnie
C **D** **G** **D**
You'll be right as rain and free from pain
G **D** **G**
With a great big sausage sarnie

Well once the doctors treated us with linctuses and tinctures
But now they all have cameras to shove up all our sphincters
We don't reproach the new approach to modes of modern medicine
But they just won't think alternative which really does our 'eads in

I don't deny the benefits of X-er-rays and CAT scans
But it costs a bloody fortune every time you need your twat scanned
Though financial targets tighten and hitting them is harder
They just wont try the bangers sitting out there in the larder
