	G	Α	D	-	
	Sing your own ancient songs.				

C
Tell them how a man can live
D
With only what the earth has got to give
G
And how she can provide for each man's need
G
A
D
But not enough to furnish each man's greed

Sing the song that helps them all to see
The link between what was and what's to be
Sing the way that everything must change
And sing the way that all things stay the same

Tell them of the journey down the years Sing the people's happiness and tears Let them know although they've come so far What they were is part of what they are
