

## Sprinkle to a Squirt

**D** **G** **D**  
Now we doctors are all chaps that you can trust I'm sure you know  
**E7** **A7**  
So when you find that you've got trouble brewing down below  
**D** **D7** **G** **G#dim**  
We're the ones to track the gremlins down no matter where they lurk  
**D** **A7** **D**  
We're the lads to put the pressure back into your water works

**CHORUS:** **D** **G** **D**  
Yes we'll help you turn the sprinkle to a squirt  
**E7** **A7**  
We will help you turn the trickle to a spurt  
**D** **D7** **G** **G#dim**  
It's a simple operation and we promise it won't hurt  
**D** **A7** **D**  
And we'll help you turn the sprinkle to a squirt

One day you're right as ninepence, and you're feeling right as rain  
And the next it's like there's been a bloody hose pipe ban again  
And it's not the sort of problem you can mention to your mates  
'Cause you know that Mr Drippy is a nickname that you'd hate

Now the patient may display poor aim and miss the proffered pan  
Though this is often thought of as quite normal in a man  
Those tell tale signs like bathroom carpets damp beneath the toes  
Mean he's got a leaky washer or been fitted with a rose

Some say the cure is poultices of steaming dock and quince  
Some swear the bests results are gained by total abstinence  
Some say that micro surgery 's required without a doubt  
But we believe that all you need's a damn good rodding out

And in the days to come you'll take your place with all the rest  
Before the gleaming porcelain performing with the best  
Playing firemen or machine guns as proudly there you stand  
Just like MacNamara with the best gland in the land
